

There should be NO CASINO NEXT TO LIBERTY STATE PARK on land owned by Liberty National Golf Course owner Paul Fireman! If you live in Jersey City, please vote NO on the November ballot referendum. Jersey City Mayor Steven Fulop has pledged that if the majority of Jersey City voters vote NO, then he will not allow the casino to be built in Jersey City. The unavoidable, inevitable traffic jams from a casino will have a very negative impact on public access to our beloved open space family park, especially on non-winter weekends. A casino may be fine in the Meadowlands if those communities want it there, but casino traffic at Exit 14B and along Caven Point Road and Phillips Street would be unpreventable and a casino must never happen right outside of Liberty State Park. So we are asking that only Jersey City vote NO! You may have other reasons for voting No also.
