

Please help stop LSP Non-Commercial Southside Major Privatization 2nd LSP Marina Plan

Please email NJDEP Commissioner Bob Martin at
commissioner@dep.nj.gov
and/or call him at 609-292-2885 and/or fax him at 609-292-7695

to strongly oppose – even in one sentence - a private, commercial marina along LSP's entire non-commercial peaceful southside, and to demand public hearings that don't start until after January 1st and only on Saturdays.

YOUR URGENT ACTION IS AGAIN NEEDED TO SAVE LIBERTY STATE PARK from this secret deal for a Massive "Millionaires' Marina" along the non-commercial, peaceful family picnicking Southside - right behind Lady Liberty (the Flag Plaza Lawn/jetties/Caven Point Side) with its priceless harbor views in all directions.

Please follow the Friends of Liberty State Park and help us to spread the word on Facebook. Instagram and Twitter.

This marina plan would ruin LSP's "Central Park" true purpose of people's enjoyment of the peaceful openness of our urban waterfront haven for picnics, jogging, walking, bicycling, fishing, relaxing and taking in the expansive open harbor views looking southward toward the Verrazano Bridge.

This obscene giveaway of a second LSP longterm commercial marina will:

- wreck America's connection to the South Overlook Lawn with its Flag Plaza and picnic area and LSP's symbolism as Lady Liberty's neighbor.
- Obstruct people's access to the water's edge for fishing, exploring the jetties – blocking waterfront access with locked gates to boat docks.
- Obstruct the priceless panoramic open, expansive harbor views
- inevitably confiscate southside parking spaces in the two free lots and probably want to pave over the tree grove lawn just east of the boat launch lot. On summer weekends, the two free lots are already packed.
- negatively impact the wildlife along the tranquil coastline and the nearby LSP Caven Point Natural Area wildlife habitat
