**PLEASE SIGN AND SHARE THE ONLINE PETITION** linked  
from top "banner" at [www.folsp.org](http://www.folsp.org)

### **Caven Point is:**

- critical urban habitat for migratory & nesting birds;
- environmental education resource for hundreds of students annually;
- peaceful public sanctuary for nature explorers of all ages

# SAVE LSP

# NO GOLF COURSE EXPANSION

This People's Park battle is to defeat Liberty National Golf Course billionaire owner Paul Fireman's and his surrogates' falsehoods assault on the Act, and on Caven Point to relocate golf holes.

The NJDEP, which manages LSP, is due to hold a September public meeting on the Interior Nature Restoration & Remediation Plans, and commit to exploring active recreation amenities in the park.

The Act's sponsors will propose an amendment to add social justice groups to the Act's advisory committee (no elected official suggested this last year).
